

**World Heart Federation
Cardioprogress Foundation**

**XII International Forum of
Cardiology and Internal Medicine**

INFORMATION LETTER

21-23 March, 2023

Moscow

Dear Colleagues!

We invite you to take part in XII International Forum of Cardiology and Internal Medicine. Forum will take place on 21-23 March 2023 in Moscow (online).

Congress will gather all who is interested in diagnosis, treatment, prevention of cardiovascular diseases, chronic respiratory diseases, endocrine diseases, kidney diseases and other somatic diseases.

Special attention will be paid to workshops, educational courses, discussions of clinical cases and lectures of world-famous scientists. Within the Forum there will be meetings and round table discussions of doctors from Russia, Europe and Middle Asian countries.

Abstracts will be published in the journal “Cardiovascular therapy and prevention”.

The most interesting works will be presented as poster and oral presentations. The scientific program of the Forum will hold a symposium for young scientists (under 35). Registration fee for delegates is not required. Each participant will get one congress bag free of charge.

We would like to invite you and your colleagues, i.e. professors, lecturers, graduate student and etc., for taking part in this event (submission of abstracts, scientific reports, young scientists’ competition and participation in the Congress).

Moscow is one of the great cultural capitals of the world. Moscow sightseeing tours will be organized for foreign participants of the Forum.

Best regards,

Organizational committee of XII International Forum

of Cardiology and Internal Medicine
